

**Introducing EPUB ebooks at the SEO Library Center**

The staff at the SEO Library Center would like to share a selection of some of our new EPUB titles on our Digital Catalog and Download Center.

*\* All summaries were taken from various sources including the library catalog and individual publishers' websites.*

SEO recently purchased 98 ebook titles in the EPUB format for the Digital Catalog. Adobe EPUB eBook is a digital version of a print book that has been optimized for on-screen reading. The text in an EPUB eBook is reflowable, which means that you can change the size of the text, or alter the size of your display, and the text will rewrap itself to fit the available viewing area. Adobe EPUB eBooks also support embedded content, allowing, for instance, a Flash video to be embedded within the eBook.

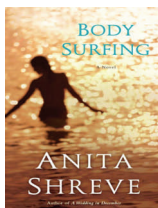

We hope that you enjoy the titles selected in the EPUB format as well as the other e formats that are available.
