

## SEO EXPO—SPECIAL EDITION

January 2009

The SEO Library Consortium Digital Catalog has a new look! MP3 audiobooks and videos have been added to the site. The MP3 audiobook can be used with the iPod, iPhone, the iPod shuffle and virtually any MP3 player. 80 MP3 titles have been added and 63 videos. The “add to Book List” feature was changed to “add to Digital Cart” and more information has been added to the digital title details section. “Plays On” icons have been added and a section showing other titles that you might enjoy if you liked this title. It also includes a “Digital Rights Information” area explaining the check-out period, if the title can be burned to CD and much more.
