

Finding Materials Using the WorldCat Catalog

The State Library of Ohio can obtain materials from other libraries for state employees through a process called interlibrary loan. To search for materials you are unable to locate through OhioLINK, you can search the WorldCat catalog which searches millions of libraries around the world.

To search WorldCat, start at the State Library of Ohio's '[Search Tips](#)' page and use the 'Search WorldCat Libraries' box.

Once you have clicked the search button, you can narrow your results by format by selecting the check boxes next to the formats you would like to view.

You can also narrow your search by author, year, language, content type, audience or subject/topic.

You can find out basic information about an item from the results list. To learn more about the item, including owning libraries, click the title.
