## Choose to Read Ohio

- The 2021 & 2022 Choose to Read Ohio (CTRO) program cycle is in full swing. The [2021 & 2022 CTRO booklist](#) features 20 notable titles for all ages and reading levels. The booklist includes five books each for young children, middle grades, teens, and adults, and encompasses fiction and nonfiction and a range of geographic and cultural interests. Ohio librarians, teachers, and other book experts help to select the biennial CTRO booklist.
- Readers' toolkits for all 20 of the 2021 & 2022 titles, and for every book featured on previous CTRO booklists, are available for download on the CTRO website ([library.ohio.gov/ctro](http://library.ohio.gov/ctro)). Toolkits include discussion questions, extension activities, author biographies, links, and resources for library program planning, book group use, and individual exploration.
- The **CTRO book widget** provides libraries a customizable platform to showcase books by Ohio authors and illustrators and to provide access to readers' toolkits and more. See it in action at <https://library.ohio.gov/ctro> and download it here: [github.com/StateLibraryofOhio/ctro-book-widget](https://github.com/StateLibraryofOhio/ctro-book-widget).
- CTRO, a project of the State Library of Ohio, Ohioana Library, and Ohio Center for the Book, encourages libraries, schools, families, and others to build a community of readers and an appreciation of Ohio authors, illustrators, and literature. The biennial CTRO booklist spotlights the diversity and quality of Ohio literature. [Learn more about CTRO](#) or contact Janet Ingraham Dwyer at [jdwyer@library.ohio.gov](mailto:jdwyer@library.ohio.gov) with any questions.

  - This managed solution is in alignment with the State’s Cloud Smart strategy which seeks to support and guide agencies as they look to Infrastructure as a Service (IaaS) and Platform as a Service (PaaS) opportunities.
  - By moving the server to a dedicated managed hosting provider, the Library is able to eliminate the expenses necessary to maintain the server infrastructure in-house.
- Multifactor Authentication (MFA) for Office 365
  - The multifactor authentication service for Microsoft Office 365 applications was successfully rolled out to all agency staff.

The vision of the State Library of Ohio is a Smarter Ohio where every Ohioan can access the necessary resources to be engaged citizens, excel at their jobs, participate in the workforce, and pursue their passions and interests.

# STATE LIBRARY OF OHIO

- The objective is to extend the use of MFA for Microsoft Office 365 applications to all state agencies, boards, and commissions to further safeguard state data.
- Implementing MFA for the state's Microsoft Office 365 offerings substantially reduces enterprise risk.
