A NOTE FROM THE EXECUTIVE DIRECTOR

“The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is a choice.” - Brian Herbert, American Author

As institutions devoted to the idea of lifelong learning it is imperative that libraries also support the continuing education and professional development of all those who work in them. We construct our schedule of continuing education opportunities based on input from our members and from those that participate on our Advisory Groups for Continuing Education, Youth Services, IT and Emerging Technology. YOU have provided the ideas for the workshops and webinars contained in these pages. YOU have enabled us to create a wide variety of opportunities, with something for everyone.

We hope that you will participate in our annual events including Critical Conversations, the Emerging Tech Symposium, Summer Reading, the New Supervisors’ Academy and the Directors’ Retreat which will feature the first RIPL Regional in Ohio. We also hope to see you at “Open Educational Resources 101 for Librarians” to learn about this emerging trend in libraries and educational settings. Or, come find out how to start or improve on your local history collections at “Libraries and Local History: You Can Do It, Too!” “A Day for Technical Services” will feature discussions about workflows and e-books while “A Day for Circ Staff” offers a “Crash-Course in Handling Some of the Worst Customers that Come Through Your Doors!”

Want more? This brochure represents a wide range of workshop and webinar content spanning February through June 2018. Information about each program can also be found on our website. We hope that by being able to look at what is being offered over the next five months, you will find programs that are important to you and your library and will choose to learn!

Betsy Lantz
The Teen Summer Reading Workshop is back! Featured ideas will include incorporating music into coding, music pop culture through the decades and end of summer reading parties.

Get your tweens and teens rocking with fun music-themed programs this summer and beyond. Turn a nursery rhyme into a rap song, incorporate hip hop and other dance forms into SCRATCH programming, make history come alive through Hamilton-inspired programming, see and hear music come alive with Snap Circuits, and brainstorm together to discover even more wonderful opportunities to rock your library!

The Conneaut Public Library’s teen department will cover pop culture beginning in the 1950s to today in their six-week summer reading program, “Libraries Rock 2018!” From the risque dance moves of Elvis Presley to Michael Jackson’s “Thriller” premiere to the NSYNC/Backstreet Boys fights, listen as they discuss weekly activities, crafts and more!

Representatives from Medina County District Library will be discussing their Summer Reading Game in which the library uses Wandoo Reader software from Evanced to run an online summer reading game for teens. Teens can record the amount of time they spend reading and challenges they have finished in order to win prizes and rewards. Each of the branches has a prize wheel that teens come in to spin to determine which prizes they will receive.

ATTENTION ATTENDEES: Please bring an idea to share during our ‘round the room program share time. It can be any successful program your library has done and doesn’t necessarily have to be related to summer reading. To make the most of this great event, we also need attendees to bring handouts of crafts and decoration ideas. Poster sessions/demos are welcome, too. If you will be bringing handouts or would like to set up a poster session, please email rachelle.perry@neo-rls.org.

Presenters:

Jennifer Haag is head of Children’s Services at the Fairview Park Branch of Cuyahoga County Public Library where she has worked since June 2016. Prior to that she was head of Children’s Services at the Garfield Heights Branch for ten years where she developed youth programming utilizing the branch’s sound and video recording studios. Jennifer loves music and performing and likes to include both in library programs for a variety of ages whenever possible.

Alex Ward is a Branch Services Assistant in Children’s at the Fairview Park Branch of Cuyahoga County Public Library where he has worked since August 2016. Prior to that he was a teacher at Cleveland High School for Digital Arts with experience in a variety of different technologies. Alex loves to think outside the box when it comes to library programming and likes to make technology accessible to youth.

Amanda Latva is the Young Adult Coordinator at Conneaut Public Library.

Molly Theil is the Youth Services Assistant at Conneaut Public Library.

Sean Rapacki is the Teen Librarian at Medina County District Library. In addition to discussing MCDL’s Summer Reading Game, Sean will also talk about Medina’s Teen End of Summer Reading Party for all participants of the Summer Reading Game.
Brittany Craig is the Teen Librarian at the Brunswick branch of the Medina County District Library and will be discussing school outreach and programming to improve summer reading participation among teens.

Jennifer Kuczek is the Youth Services Librarian at the Public Library of Youngstown and Mahoning County. Jennifer will discuss two successful summer reading programs she has done over the past few years. The first, Hogwarts Summer School, saw 43 tweens and teens dressed as their favorite wizard get hands-on with various activities, potions and spells! The second, Drama Camp, allows those in grades 4-9 to learn about various aspects of theater, including auditions and casting, before presenting a show to family and friends.

ADULT PROGRAMMING SERIES: 20 MORE ADULT PROGRAMMING IDEAS IN ONE HOUR
ONLINE
VIA ADOBE CONNECT
10:00 AM - 11:00 AM

CLASSROOM MANAGEMENT TECHNIQUES
ONLINE
VIA ADOBE CONNECT
10:00 AM - 11:00 AM

Have you ever done a library program but things didn’t go as smoothly as you would have liked? Do you ever struggle to maintain control with a group of kids? Have you ever had an issue with behavior in your programs? Then join us for this webinar featuring Angela Wojtecki and Jill Burket as they share some guidelines, tips and tricks they’ve used in schools and other various effective classroom management techniques.

Presenters:

Jill Burket had been teaching in the regular classroom for twelve years before receiving her Master’s in Library and Information Science in 2006. She has been teaching in the school library setting in Revere Local Schools for the past eleven years at both the primary and intermediate levels. She loves working with students and helping find the perfect book for them. Jill lives in Green with her husband, two dogs and two cats.

Angela Wojtecki has been the district library media specialist for Nordonia Hills City Schools for the past five years. Before becoming a library media specialist, she taught early childhood students (K-3) in the Northeast Ohio area. She is also a Past President of the Ohio Educational Library Media Association (OELMA) and a Google for Education Certified Trainer. Angela lives in Copley with her husband and two cats.

ASSISTING OTHERS WITH PROQUEST ANCESTRY LIBRARY EDITION
ROCKY RIVER PUBLIC LIBRARY
1600 HAMPTON RD.
ROCKY RIVER, OH 44116
1:00 PM - 4:00 PM

PALE (ProQuest Ancestry Library Edition) is one of four databases offered by the company. We will consider the scope of the database in overview mode to get comfortable with navigational principles at work in the interface. Then, we’ll take a more systematic approach to the tools used within the database while also pointing out the genealogy concepts and supporting resources that anyone needs to make better use of the product. By the end of three hours, you should be able to help others plan and execute basic strategies for research and discovery across the massive collections of records that have been gathered in PALE. This is a hands-on class with limited seats. Register soon.

Presenter:

Walter Lesch has been helping others with the internet longer than OPLIN has existed. He became one of the first OPLIN trainers in 1998, and he’s had the word “train” in his job titles ever since. Earning an M.L.I.S. from Kent State in 2009, he lives in Cleveland and works for Rocky River Public Library.
READERS’ ADVISORY NETWORK: FOCUS ON ROMANCE

CHILDREN’S SUMMER READING WORKSHOP 2018: LIBRARIES ROCK!
HILTON GARDEN INN
8971 WILCOX DR.
TWINSBURG, OH 44087
9:30 AM - 4:00 PM

Summer reading is back and thanks to overwhelming positive feedback, we will be holding one big event again this year on Wednesday, February 21st, 2018, at the Hilton Garden Inn! Featured ideas will include incorporating music into programming, interactive storytelling with music, crafts, decorations and, of course, our popular ‘round the room program ideas.

ATTENTION ATTENDEES: Please bring an idea to share during our ‘round the room program share time. It can be any successful program your library has done and doesn’t necessarily have to be related to summer reading. To make the most of this great event, we also need attendees to bring handouts of crafts and decoration ideas. Poster sessions/demos are welcome, too. If you will be bringing handouts or would like to set up a poster, session please email rachelle.perry@neo-rls.org.

Presenters:

Dani Gustavich is the Children Services Librarian for Dayton Metro Library. Dani will present ideas and provide interactive demonstrations on how to integrate music and sound into storytelling to make your libraries rock this summer! Dani realized her passion for early literacy while working as a lead teacher at a childcare and family center, where she devised and implemented a center-wide literacy program. She began her library career as a Children’s Specialist for the Stark County District Library, where she implemented Sensory Story Times. As the former Children’s Services Manager for the Dover Public Library, Dani enhanced community involvement by raising money for a permanent StoryWalk installation at Dover City Park and by organizing two large events featuring Eric Litwin. She is on the slate for the 2018 Caldecott Committee Ballot and hopes to have the dream of being on the committee fulfilled.

Kaitlin Walker And Bonnie Berg-Simmons are Youth Services Associates at Twinsburg Public Library. Kaitlin and Bonnie will discuss how to bring music to every facet of your children’s department, from story times to programming and even passive activities that patrons can use at will. They will also discuss ways to drum up Summer Reading Club interest with class visits and school assemblies. Whether you have a background in music or have never even touched an instrument, every librarian can help foster a love of music and learning in their library.

Kaitlin has been a huge music nerd since she first learned to play the piano as a child. She has since played multiple instruments in multiple bands and loves to share her love of music with anyone who is interested. Bonnie has had a very brief musical career since a disastrous holiday concert in third grade. She currently plays the ukulele, has never been in a band and still loves to share music with families at the library.

Janet Dwyer is the Youth Services Library Consultant for the State Library of Ohio. Janet will give an overview of trends and current best practices in SRP, facilitating a discussion on what is working and what isn’t, and she will lead a crowd-sourcing idea generation exercise she just learned at the YALSA/state library youth consultants meeting.
Learning Objectives:

✓ Incorporating music into different aspects of youth services such as programming and storytelling
✓ Summer Reading Club school visits
✓ Current trends and best practices in summer reading

NEW SUPERVISORS’ ACADEMY
SESSION ONE: IT ALL STARTS WITH ATTITUDE AND KNOWING YOURSELF
TWINSBURG PUBLIC LIBRARY
10050 RAVENNA RD.
TWINSBURG, OH 44087
9:30 AM - 4:00 PM

The NEO-RLS New Supervisors’ Academy is back by popular demand. Becoming a supervisor adds new and different challenges to your work day regardless of the type or size of library you work in. The Academy’s courses will provide you with the skills and confidence you need to handle the many and varied challenges of being a supervisor. Programs will focus on three key areas: leadership, communication and staff development. The Academy is appropriate for new supervisors in multi-type libraries and for those who want a refresher.

The Academy is a blended course which runs from February through November and consists of three face-to-face workshops and seven webinars. We recommend that you attend the Academy in its entirety in order to maximize your learning. Archives of live webinars will be available at your convenience for those attending the Academy in its entirety and experiencing a scheduling conflict. Live webinars will be available individually for registration for those NOT attending the Academy in its entirety.

A past participant had this to say:

“It was great to network with others that are in the same situation as myself. It was great to gain more knowledge on several topics with being a supervisor. I liked being able to bounce ideas off of each other, too.”

SESSION ONE:
IT ALL STARTS WITH ATTITUDE AND KNOWING YOURSELF

Being a good supervisor starts with having a great attitude, and our series will begin with the opportunity to listen and interact with leaders as they share their experiences regarding the impact of attitude. Be sure to bring your most pressing questions.

The panel will consist of:

Andrew Mangels, Director, Westlake Porter Public Library
Michelle Alleman, Director, McKinley Memorial Library
Karla Aleman, Dean, Library & eLearning, Bass Library/Community Resource Center, Lorain County Community College
Jim Gill, Director, Dover Public Library
Molly Carver, Director, Sandusky Library

The afternoon will focus on a Myers-Briggs assessment. The Myers-Briggs Type Indicator (MBTI) assessment provides a useful method for understanding people by looking at eight personality preferences that everyone uses at different times. One of the most critical aspects of the MBTI is that it identifies preferences – not abilities or skills. It is designed to bring type awareness to those who might find growth and learning within its ideas. You will have fun exploring and validating your type preferences. The MBTI is the most popular assessment in the world and has been applied as a tool for many years by a variety of users around the globe. This assessment will not only help you to know yourself but give you insights into how your employees work.

Presenter:

Holly Klingler, Research and Innovation Coordinator, NEO-RLS
HUMAN RESOURCES NETWORKING EVENT
WESTLAKE PORTER PUBLIC LIBRARY
27333 CENTER RIDGE RD.
WESTLAKE, OH 44145
10:00 AM - 3:00 PM

Join your peers for a lively discussion of the latest issues facing human resources. Please email any agenda items you are interested in discussing to Yvette Wasko at waskoy@wtcpl.org.

STRENGTHENING RELATIONSHIPS THROUGH CONFLICT
STOW-MUNROE FALLS PUBLIC LIBRARY
3512 DARROW RD.
STOW, OH 44224
9:30 AM - 12:30 PM

Conflict occurs for many reasons and is an inevitable part of unique human beings co-existing. Unfortunately few people have had formal training in conflict mediation techniques. As a result, incongruous methods used to manage the conflict can actually inhibit resolution.

This program provides strategies for achieving conflict resolution that strengthens harmony in a relationship rather than damaging it.

In this program, we will:
✓ Assess the connection between one’s mindset toward the conflict and its outcome
✓ Practice converting the emotional component of disagreement into a rational discussion
✓ Develop strategies to create a resolution that respects all parties and strengthens the relationship among them.

Presenter:

Deborah A. Easton, Communication Skills Consultant, provides audiences with practical advice for utilizing effective communication skills. Her techniques for one-to-one interactions and group communications provide positive results. She has conducted training for organizations such as FirstEnergy, Hyland Software and Summa Health System. Easton has been instrumental in numerous special projects, including developing performance evaluation systems and facilitating cultural change. She earned a master’s degree in speech communication and taught communication courses in Kent State University’s Department of Communication Studies and Graduate School of Management.

EVERYDAY DISABILITY: WELCOMING PATRONS WITH DISABILITIES
ONLINE
VIA ADOBE CONNECT
2:00 PM - 3:00 PM

People with disabilities—be it physical, mental or medical—are among the most disadvantaged in our society. According to the U.S. Department of Labor, only 16% of people with disabilities will complete a bachelor’s degree and less than 50% will find gainful employment.

This session will offer actionable strategies for welcoming patrons and staff with disabilities into your libraries. A brief presentation will be followed by case studies with a focus on group brainstorming and a time for questions and discussion.

Presenter:

Vera Hayes is a Young Adult Librarian who you may recognize as the “Librarian from Kansas” who recently illustrated the cost of multiple chronic health conditions measured in iPhones. The article was turned into a Facebook video, which has been viewed more than 170K times. Vera presented on disability at both ALA and the YALSA Symposium.
CONSTRUCTION AND FACILITIES NETWORKING EVENT

MADISON PUBLIC LIBRARY
6111 MIDDLE RIDGE RD.
MADISON, OH 44057
10:00 AM - 3:00 PM

Procurement of Library Facilities: Procurement of an Architect, Bidding, Procurement of a Construction Manager at Risk and Procurement of a Design Builder

This program will discuss the various processes for selecting professionals to assist with the design and construction of public library facilities in Ohio. Each of the major project delivery models will be discussed, including an overview of each procurement process, the standard for awarding contracts, the process for rejecting unqualified firms and the relative costs, benefits and risks associated with each process.

Presenters:

Jack Rosati, Jr. is the chair of Bricker & Eckler’s Construction Law Group. With 27 years of experience as a construction attorney, Jack’s practice emphasizes counseling and litigation related to bid disputes, construction defects, insurance coverage issues, project delivery systems, construction contracts and specifications.

Laura Bowman is an Associate at Bricker & Eckler. Her practice focuses on the preparation of construction project documents on behalf of private and public employers. She provides guidance on project delivery systems, including construction manager at risk and design-build, and creates procurement and bidding documents as well as construction project contracts. Her experience also includes advising public owners on compliance with Ohio statutory requirements relating to construction bidding and procurement.

This presentation will be followed by lunch, a roundtable discussion and a tour of the library. Please send agenda items to Shawna Keringer at shawna.keringer@madison-library.info.

state on many topics including cybercrime, money laundering, fraud and best practices for local governments. Nicole wrote the first policy on social media and internet usage for a leading defense industry corporation that has been adapted by many corporations since. In law enforcement, Nicole has brought dozens of criminals to justice, assisting in numerous undercover narcotics and prostitution stings and worked with the FBI on their public corruption unit. Nicole is a member of the U.S. Secret Service Southern District’s Electronic and Financial Crime Task Force where she works alongside agents on investigations involving counterfeiting, terrorism and electronic crimes. Nicole was accepted into the National Computer Forensics Institute and is trained in computer forensics, network investigations and network intrusion response.

**BATTLE OF THE BOOKS: TEEN EDITION**

**ONLINE**

**VIA ADOBE CONNECT**

2:00 PM - 3:00 PM

How can you encourage young people to read voraciously? Inject some competition into their reading! Join Huron Public Library Director, Benjamin Reid, and Public Services Librarian, Carol Opalka, for a webinar on the Erie County Libraries Battle of the Books. Implemented by Reid and Erie County Teen Librarians in 2015, this successful literary spectator sport is now a highlight of the fall programming schedule.

Learn about the rules of the game, time and personnel needed to prepare for the battles, and ways to market this program and build your own team. Huron Public Library does the program for grades 4-8, but it can easily be adjusted for high school students, as well. The Battle of the Books is a perfect way to collaborate with local libraries and share a love of great books...down to every last detail.

**OPEN EDUCATIONAL RESOURCES 101 FOR LIBRARIANS**

**BALDWIN WALLACE UNIVERSITY**

**RITTER LIBRARY**

**BEREA, OH 44017**

10:00 AM - 3:30 PM

Heard of Open Educational Resources (OERs) but not sure what they are? Want to gain some hands-on experience working with OERs and exploring their use in libraries and other educational settings? Join us at this all-day workshop to learn why you should care about OERs, where you can find them and how you can use them to better serve your community.

Interest in OERs is gaining momentum all over the world, and now more than ever, librarians are poised to become essential partners in their creation and promotion. Whether you work in a public, school or academic library, OERs can play an important role in building relationships, improving student learning and supporting our mission to share education and information widely. Participants will leave this workshop with a better sense of what OERs are, strategies for finding and evaluating open resources and take-away goals for promoting OERs in their own library or community.

Topics for the Workshop:

✓ What are OERs?
✓ Why should librarians care?
✓ Barriers to OERs
✓ OERs and Creative Commons
✓ Finding OERs
✓ Comparing and Evaluating OERs
✓ Using OERs as a practitioner

Presenters:

*Mandi Goodsett* is the Performing Arts and Humanities Librarian at Cleveland State University. She earned her M.L.I.S. from the University of Illinois at Urbana-Champaign in 2013. Mandi’s professional
interests include open education, critical thinking and library instruction, and distance learning. In keeping with her interest in promoting open education, Mandi also serves as an OhioLINK Affordable Learning Ambassador for Ohio. TWINSBURG PUBLIC LIBRARY
10050 RAVENNA RD.
TWINSBURG, OH 44087
10:00 AM - 3:00 PM

The morning will begin with a training on preparing for an audit. Our training will be provided by a representative from the Auditor of State’s office, Joey Jones. Joey, a Chief Auditor in the Audit Division in the East Region, will present from 10:00 AM until noon.

The afternoon will be a roundtable discussion. Please send any agenda items to be discussed in the afternoon to Debbie Blair at deb.blair@neo-rls.org by February 26, 2018. The agenda will be distributed one week prior to the event.

STAFFING STRATEGIES
EUCLID PUBLIC LIBRARY
631 E. 222ND ST.
EUCLID, OH 44123-2091
9:30 AM - 12:30 PM

Having the right people in place at the right time to serve your visitors/customers/clients is critical. But sometimes we are challenged by the availability of top talent in our labor market, or there are internal constraints such as time and budget that prevent us from finding and getting the best people.

Our March 2018 program will be an interactive one where we will discuss these challenges and learn how we can successfully meet them.

In this session you will learn:

✓ What the competitive landscape for talent is in 2018
✓ What employees are seeking in their career
✓ How to create a value proposition to attract and retain top talent
✓ Factors to consider when developing a staffing plan
✓ How to optimize your staff so that it is a win for your visitors/customers/clients, your organization and your employees.

Following this session will be a program on the importance of job descriptions. Job descriptions are more than just a list of tasks. They serve as the basis for employee performance expectations – protecting both the employer and employee. This program will address the importance of having solid job descriptions as well as provide the legal reasons for having accurate and updated job descriptions. Bring your job description questions with you!

A SAFETY DAY FOR EVERYONE
TWINSBURG PUBLIC LIBRARY
10050 RAVENNA RD.
TWINSBURG, OH 44087
9:30 AM - 3:30 PM

The fundamental safety responsibility of all employers is to provide an environment free of recognized hazards capable of causing loss. Understanding each and every potential hazard capable of causing a loss is an overwhelming task. Numerous standards and programs detailing responsibilities for specific hazards have been created. Not all of these standards and programs have direct application to library operations, but many have requirements that apply to all industries, private and public. This safety workshop will provide an overview of those safety programs with direct application to all library operations.

Topics to be covered:

✓ Hazard communication
✓ Fire prevention
✓ Electrical safety
✓ Slips, trips, falls
✓ Bloodborne pathogens
✓ Basic first aid
✓ Emergency response plans

Presenter:

Travis Thompson, CPSI, CSRM, is the Director of Risk Management for Ohio Plan Risk Management, Inc.

**CREATING A CODING CLUB IN YOUR LIBRARY**

**ONLINE**

**VIA ADOBE CONNECT**

**10:00 AM - 11:00 AM**

Real advice for real librarians! We all know that STEAM programming is important, but how practical is a coding club in a real library with limitations like budgets, space and a staff who has never touched code before? Learn how one librarian took herself from coding newbie to successful educator running two coding clubs for grades 6-12.

This webinar addresses:

- ✓ Real concerns and pitfalls
- ✓ Best practices
- ✓ Useful tools
- ✓ Why coding is important for ALL your patrons (hint—it has less to do with jobs and more to do with learning.)
Presenter:

*Marisha Sullivan* is the Teen Services Librarian at the Ashtabula County District Library. She may be relatively new to the field of librarianship, but she has hit the ground running. Her programming specialties include STEM programming (especially computer coding, engineering and emerging technologies), and anything involving geek culture. In her semi-existent spare time, she likes to read steampunk, fantasy, independent graphic novels and anything else that her library kids love. She is a strong LGBT+ advocate, teaches theatre, has a cat named Hufflepuff and might have a problem with buying too much tea. She may be freely approached in her natural habitat, as she is widely considered to be about as dangerous as a basket of baby bunnies.

The Myers-Briggs Type Indicator assessment is one of the most popular and well-known personality tests today, taken by 80% of Fortune 500 companies and 89% of Fortune 100 companies according to the CPP. There has recently been a lot of buzz—both positive and negative—surrounding the assessment, but it continues to be a highly demanded test to be taken by professionals. What is the Myers-Briggs Type Indicator assessment? How can it help you work more effectively as a colleague, manager or customer service representative?

In this webinar, you will:

- Learn about what the Myers-Briggs Type Indicator measures and how it is related to your personality preferences
- Understand how you can utilize the information in your work dynamics and effectiveness, from problem-solving to communication to leadership development
- Be provided with practical strategies for working more productively with others of different and diverse personality preferences
Presenter:

Holly Klingler is the Research and Innovation Coordinator at NEO-RLS. Holly helps people learn to use and love technology. She is also a certified Myers-Briggs Type Indicator (MBTI) Facilitator, coaching others on how to understand their preferences and type, how to work and lead others with a variety of different personality traits, how to capitalize on each other's strengths and talents, and ways to utilize these strengths to build a strong, dynamic and productive team.

INTERACTIVE STORYTELLING
WESTLAKE PORTER PUBLIC LIBRARY
27333 CENTER RIDGE RD.
WESTLAKE, OH 44145
9:30 AM - 12:30 PM

Join storyteller Lindsay Bonilla for this immersive, hands-on half day workshop on storytelling. This workshop will get participants thinking about ways to actively involve the audience in their tellings. Reasons for interactive storytelling, how to choose appropriate material and different levels of audience participation will be discussed. Opportunities to develop stories and make them interactive will also be given. Also, tips for how to learn a story so you can tell it instead of read it; how to approach a story or picture book and find ways to make it interactive; how to involve the audience through kinesthetic and vocal participation; how to use simple props and puppets to engage audience members; additional dramatic techniques to help bring stories to life.

Please note: Attendees are asked to bring a picture book with them to the workshop.

Presenter:

Lindsay Bonilla can't remember a time in her life when she's wasn't immersed in a world of stories. She spent most of her childhood devouring books, scribbling stories in her notebook and dramatically acting out her own “plays” on the front porch. Today Lindsay shares her love of stories and the stage through her company, World of Difference Ltd., where she performs interactive folktales while teaching about foreign countries and cultures, inspiring the imagination and promoting a love for learning and literacy.

Lindsay is an avid writer, having written poetry, picture books, skits, magazine articles and even screenplays. She has four published children's books (Lily and the City of Light, Lily and the Return to Htrae, ‘Twas the Year Christ Left Christmas and O Christmas Tree) and two DVD films, Flight to India and Voyage to Russia, based on some of her most popular storytelling programs. She is always working on one, two or ten different picture book ideas!

Lindsay is a graduate of Northwestern University, where her studies focused on theatre, creative dramatics, storytelling and world religions. Before founding her own company she performed and taught locally for such organizations as Magical Theatre Company and Malone University. She also spent a year and a half in Madrid where she toured Spain and Portugal with Interacting, an audience-participatory theatre company that used interactive performances to teach English to speakers of other languages.

Lindsay’s love for world travel has taken her to five continents, and she has performed and taught in such places as Ghana, Haiti, Argentina and most recently, Guatemala and El Salvador. Lindsay lives in North Canton, Ohio, where you can often find her speaking Spanish with her Colombian-born husband, Estith, telling superhero stories to her sons Rafael and Alejandro and running with their one-of-a-kind rescue dog, Blitzen.

The speaker for Interactive Storytelling is generously funded through a gift from the Leigh and Mary Carter Family Foundation.
PR NETWORK GROUP: FOCUSED ON INFOGRAPHICS AND STYLE GUIDES
CUYAHOGA FALLS LIBRARY
2015 3RD ST.
CUYAHOGA FALLS, OH 44221
1:00 PM - 4:00 PM

In the first half of this discussion, we’ll go over infographics, which are simply visual representations of complex information done in a way that is easily digestible for your audience. We’ll talk about why and when you might want to use them as well as some basics on getting started on creating your own.

Then we’ll tackle creating a simplified style guide for your organization. A style guide helps insure that all publications and materials from your organization have a unified look. We’ll discuss why that’s important and what to include so that it’s both useful and easy for other members of the team to understand and implement. We will end with a roundtable discussion of your challenges and successes.

Presenter:

Adam Littell has worked in non-profits and marketing for 20 years and is currently the owner of Next Step Services, a small business-focused marketing company. In addition to his marketing experience, Adam has been married to a librarian for most of those years, so he has experienced and “volunteered” within the library world and helped apply business marketing concepts to non-profit and library goals.

TIME MANAGEMENT FOR ALL

Come with your issues and concerns as there will be time for specific questions and concerns. Don’t miss out on this interactive, informative session with handouts and lots of tips and tricks to reduce your stress and get more done.

Learning Objectives:

✓ Learn how planning upfront can save you time in the long run.
✓ Understand three different prioritizing methods and which one works best for you.
✓ Recognize how blocking your time for important tasks can help you get more accomplished.

Presenter:

Susan Aldrich has spent years motivating and inspiring audiences to step out of their comfort zone in order to reach their full potential individually or as part of a team. With more than 25 years of experience, she is now seen as the go-to motivational speaker and trainer for corporations interested in investing in their high potential employees with a proven program that guides emerging leaders and employees on a journey to success.

LIBRARIAN’S GUIDE TO HOMELESSNESS
AKRON SUMMIT COUNTY PUBLIC LIBRARY
60 S. HIGH ST.
AKRON, OH 44326
9:00 AM - 4:00 PM

In the morning, participants will learn to address common problems associated with homeless patrons (e.g. odor, panhandling, etc.). The focus of this practical training is for frontline staff to have the tools they need to prevent/resolve problems while still remaining an inclusive library.

A deeper dive into the concepts learned in the morning session, the afternoon training provides opportunities for participants to try out the tools and techniques they have learned in an interactive (and surprisingly fun) environment.
Presenter:

Ryan Dowd is the Executive Director of Hesed House. Ryan started volunteering at his local homeless shelter when he was 13 and started working there when he was 21. He became Executive Director of the second largest homeless shelter in Illinois immediately after law school. Ryan has worked with tens of thousands of homeless individuals. He accidentally became the foremost expert on homeless library patrons after a short YouTube video he made on the subject went viral.

DIGITAL PROJECTS: HOW TO GET STARTED

CLEVELAND PUBLIC LIBRARY
325 SUPERIOR AVE. N.E.
CLEVELAND, OH 44114
9:30 AM - 3:30 PM

In the morning we will touch upon the nuts and bolts of building a digitization program. We'll start from the very beginning as we discuss the reasons why you want to start scanning, the equipment and knowledge potentially needed and workflows to achieve your goals in a timely and efficient manner.

The workflow section will include topics such as: selection of materials, gathering information about the materials, scanning best practices, creation of derivatives, backing up your work, providing access to your ravenous public, etc. Examples will be given of projects performed at each presenters’ institutions.

This workshop will cover:

✓ Why a digitization project
✓ What equipment is needed
✓ Knowledge needed
✓ Workflows
✓ Examples of projects

Following lunch we will have a question and answer session about the digital projects that you are working to complete and/or start. Bring your questions and concerns and receive answers from the experts. You will also have the opportunity to tour the Digi-Lab.

Then you will hear about the DPLA (Digital Public Library of America) and learn the following:

✓ What DPLA is
✓ How to increase access to your own collections
✓ What you need to do now with your digital project to participate

Presenters:

Rachel McPherson, Digital Projects Librarian, Ingalls Library, Cleveland Museum of Art

THE WELCOMING LIBRARY: A MULTISENSORY APPROACH
ONLINE
VIA ADOBE CONNECT
10:00 AM - 11:00 AM

You want your library to be welcoming. It is more than just customer service. You want to surprise and delight your patrons to keep them coming back. By attending this engaging webinar, participants will be able to:

✓ Explore all five senses and discover how to best use each in delivering a welcoming library experience for our patrons
✓ Identify your strengths in addressing the needs of all types of patrons
✓ Ponder the talents of your team at your branch

Presenter:

Andrea Eagan, Youth Services Assistant at Geauga County Public Library, has been involved in library work for 17 years. A graduate of Cleveland State University, wife of Paul and mom to adult sons, Joe and Josh, Andrea has been a lifelong lover of people and has found all kinds of ways to make them the focus of her job! From fast food to banking and from retail to teaching, and even marketing pet food, Andrea has been working with and for people for 35 years and plans to continue serving patrons of all ages for as long as she is able. She looks forward to sharing experience and a fresh perspective on welcoming patrons in your libraries.

NEW SUPERVISORS’ ACADEMY
SESSION FOUR: EFFECTIVE WORKPLACE COMMUNICATION FOR NEW SUPERVISORS
ONLINE
VIA ADOBE CONNECT
10:00 AM - 11:00 AM

Experts suggest that we are communicating in one way or another more than 90% of the time we are awake! Communication can be positive or negative, verbal, non-verbal or in writing. Communicating effectively is a learned skill that requires practice, patience and a desire to be more effective every day.

More importantly, your success as a supervisor will greatly depend on how effective you are in communicating your message to others in your library. This webinar program for the New Supervisors’ Academy of NEO-RLS will focus on the do’s and don’ts of effectively communicating with others (including your boss!)

Presenter:

Andrew Sanderbeck has been developing and conducting training seminars for libraries and library organizations for more than 10 years. He has presented web-based, online and face-to-face sessions on management and leadership, customer service and communication skills in the U.S. and numerous countries around the world. He is the founder of the People Connect Institute Webinars.

CRITICAL CONVERSATIONS MINI-CONFERENCE: TOLERANCE IS NOT ENOUGH: LIBRARIES RESPOND TO HATE
HILTON GARDEN INN
8971 WILCOX DR
TWINSBURG, OH 44087
9:00 AM - 4:00 PM

“No matter what type of library you work in and what type of position you hold in the library, you are embedded in ‘intercultural labor’ every day,” according to Beate Gersch. In the midst of our busy days we don’t always understand the challenges faced by others. Do you want to grow in your understanding of how biases impact our service to patrons and our profession? Are you aware of your personal cultural
Tolerance is Not Enough: Libraries Respond to Hate” is the theme for the May 3, 2018, Critical Conversations Mini-conference. Following on the success of last year’s Critical Conversations, NEO-RLS has put together an interactive program focused on helping library staff assess their own cultural identities and biases and looking at how these biases impact service. The day-long format will include speakers on the issues of diversity and inclusion within libraries and breakout sessions examining specific responses. The day will conclude with a panel discussion. We hope you will join us for this thoughtful and informative day.

Beate Gersch, Assistant Professor of Bibliography, Coordinator of Instruction Services and Undergraduate Outreach Librarian at the University of Akron, who has taught extensively on the topic of cultural identity, will kick off the day. Dr. Gersch’s interactive presentation is entitled “Library Staff and Information Professionals as Cultural Brokers: Celebrating the Joys and Tackling the Challenges of Cultural Diversity and Inclusion.” Whether you work in Reference, teach tech workshops, enhance bibliographic records or manage collections, you inevitably work as a moderator, translator, negotiator and navigator of “library culture” for your patrons and your community as they engage with your resources and services. As librarians we comfortably function in our library world, and sometimes the rut of our daily routines keeps us from recognizing barriers or challenges that may exist for others in our library world, including patrons and co-workers.

This interactive presentation looks at libraries as cultures, complete with their own language, rituals, economic contexts, cultural challenges and conflicts. Through the lens of intercultural communication we reflect on our multifaceted identities as librarians and explore strategies to foster cultural diversity and mutual respect in our engagement with patrons and colleagues.

Some of the themes we will explore are:

✓ Anxiety/uncertainty management: The first step in managing anxiety and uncertainty is to recognize it. How can we help our patrons navigate and feel comfortable in our library culture, especially if they don’t reveal their apprehension to us? How can we anticipate potential triggers of anxiety and uncertainty and proactively manage them?

✓ Intercultural communication competence: How can we improve communication with patrons and co-workers, even when we seemingly speak the same language? While there is no easy recipe to follow or badge to earn, taking a look at our own assumptions and behaviors is a good first step. How can we engage in continuous self-reflection without it becoming an arduous exercise in self-deprecation?

✓ Critical librarianship: While this term may be considered a buzzword in academic librarianship, the notion of critical consciousness in our work as librarians applies to all types of libraries. How can we engage our patrons, our colleagues and ourselves in civic discourse and matters of social justice?

This interactive presentation will not solve intercultural communication challenges, political discord or social injustice, but it will provide you with ideas to begin conversations, raise important issues and foster diversity and inclusion in your libraries and communities.

Following Dr. Gersch’s presentation, participants will have a choice of breakout sessions to attend:

✓ #LibrariesRespond: Jody Gray from ALA’s Office for Diversity will talk about the #LibrariesRespond program, the reason it was launched and its ongoing use.

✓ Serving the Underserved: Libraries as Community Champions. The Great Recession forced many families and communities to rely heavily on public libraries while libraries across the U.S. are experiencing different levels of budget constraints and reductions in services and staff. Libraries are still playing a critical role in addressing socio-economic disparities in high-crime and poverty stricken communities. Americans agree that libraries help improve the quality of life giving everyone a chance to succeed by breaking multigenerational cycles of poverty. This session will be led by Shanika Heyward, Regional Manager, Fort Harrison Branch, Indianapolis Public Library and a Library Journal 2016 Movers & Shakers – Change Agent (LJ March 15, 2016).
Karen Jensen, Young Adult Services Coordinator at the Public Library of Mount Vernon and Knox County, will focus on her interactions with African-American students who came to her upset about incidents occurring in their school after the election in November 2016.

LGBTQ Diversity: In this workshop, participants will explore the social and cultural impacts of identifying as lesbian, gay, bisexual, transgender or queer in the U.S. today. Key concepts and competencies for working with members of these communities will be explored. Some key concepts explored include: gender pronouns, definitions of sexual orientations, explanations of preferred/updated language and statistics regarding the implications of LGBTQ discrimination. Participants will be better prepared to address biased language and inequities toward the LGBTQ community after attending this session led by The Diversity Center of Northeast Ohio. Participants will leave with increased confidence in their ability to create a library that is respectful, inclusive and affirming for all.

Following lunch, Stacy Collins, Liaison Librarian at Simmons College, will talk about what equity means, the use of language and systems of oppression in her presentation, “Ally is a Verb: Anti-Oppression and Systems-Thinking in Libraries.” As library staff and information professionals, we are committed to equity in our service as well as to being agents of positive change in our communities. Using an anti-oppression lens, this presentation will discuss these goals and the importance of systems-thinking to examine power and privilege and to unpack what equity and allyship truly entail as part of our work.

Participants will then have the opportunity to participate in another one of the above breakout sessions.

Nicole Cooke, Assistant Professor and MS/LIS Program Director at The iSchool at Illinois, will be the last presenter of the day. Dr. Cooke’s talk is entitled, “Tolerance is Not Enough: Striving Towards a Critical and Proactive LIS Practice.” Library professionals are advocates and libraries are proponents of equal access; this access is not solely relegated to books and information within the library. This talk will utilize social justice advocacy within LIS and discuss ways for library professionals to expand their cultural competence into a socially just information practice.

The day will end with a panel of all the speakers to be sure that you receive the answers you are seeking.

**Presenters:**

Dr. Beate Gersch is the Coordinator of Instruction Services at University Libraries at the University of Akron, where she also serves as liaison to the School of Communication and the Department of Modern Languages. She holds a Ph.D. in Media Studies from the University of Oregon, an M.L.I.S. from Kent State University and an M.A. in American Studies from the Freie Universität Berlin, Germany. Prior to becoming a librarian, she taught at Trinity University and the University of Texas at San Antonio. Her experiences as a legal alien and as a researcher of incarcerated populations, as well as her work with students from diverse cultural and economic backgrounds have fostered her interest in exploring the intersections between intercultural communication and information literacy.

Anastasia “Stacy” Collins (she/her/hers) is a Research & Instruction Librarian at the Simmons College Beatley Library where she provides research, teaching and learning support with an emphasis in critical and anti-oppressive practice. She developed an Anti-Oppression Guide for her library and has given several presentations on equity work in many facets of LIS. Outside of librarianship, Stacy is a children’s literature scholar and reviewer as a facilitator with the Anti-Racism Collaborative in Cambridge, Massachusetts.

Dr. Nicole A. Cooke is an Assistant Professor and the M.S./L.I.S. Program Director at the School of Information Sciences, the University of Illinois at Urbana-Champaign. Her research and teaching interests include human information behavior (particularly in an online context), critical cultural information studies and diversity and social justice in librarianship (with an emphasis on infusing them into L.I.S. education and pedagogy). She was named a “Mover & Shaker” by Library Journal in 2007 and was the 2016 recipient of the American Library Association’s (ALA) Equality Award and the Achievement in Library Diversity Research Award presented by ALA’s Office for Diversity, Literacy & Outreach. Her latest work is *Information Services to Diverse Populations* (Libraries Unlimited, 2016).

Speakers for the Critical Conversations Mini-Conference are generously sponsored by an LSTA Open Grant from the State Library of Ohio.

BRANCH MANAGERS NETWORK
MEDINA COUNTY DISTRICT LIBRARY - BRUNSWICK BRANCH
3649 CENTER RD.
BRUNSWICK, OH 44212
1:00 PM - 4:00 PM

As a result of the Day for Small Libraries and Branches, we are starting a Branch Managers Network. Here is an opportunity to share your challenges and successes with other branch managers within the region. This will be the first meeting. Please join us at the Brunswick Branch of Medina County District Library on Friday, May 11, 2018.
The 6th Annual Directors’ Retreat will focus on training directors, assistant directors and deputy directors from multi-type libraries in the purposeful collection, analysis and use of data for effective decision-making. Conducted by three instructors from the Research Institute for Public Libraries (RIPL), the two-day retreat will act as Ohio’s first RIPL Regional. To ensure applicability for academic and special library attendees, Eric Resnis, Organizational Effectiveness Coordinator for the Miami University Libraries, will facilitate breakout sessions on Community Needs Assessment and Data Analysis. The 50 attendee limit will allow facilitators to work with participants on hands-on activities, provide individual coaching and engage in discussions related to the application of concepts to your specific library and community.

The NEO-RLS two-day Directors’ Retreat is open to Directors from multi-type libraries. Over the past two years, the retreat has been opened to Assistant and Deputy Directors, as well, and has attracted academic, special and public librarians. The format of the Directors’ Retreat – immersive learning around a specific theme and including small group work, roundtable discussion and personal action plans – lends itself well to the format of RIPL’s two-day regional meetings. In addition to helping individual attendees gain knowledge and confidence with data and evaluation, Dr. Linda Hofschire, Director of the Library Research Service, State Library of Colorado, says that the regional format aims to build an ongoing network of librarians who can share their expertise.

Workshop Topics:

✓ Tools and competencies to lead evidence-based practice within your specific library and community
✓ Methods to increase overall knowledge in the areas of community needs assessment, outcome-based evaluation, survey design, data analysis, benchmarking and data visualization
✓ Collaboration with RIPL to advocate for rigorous evaluation practices and the use of data in strategic planning and all other aspects of library management

Presenters:

Linda Hofschire is the Director of the Colorado State Library’s Library Research Service. She has more than 15 years of experience working in social science research and evaluation. At LRS, she manages a variety of research and evaluation projects such as a biennial study of U.S. public library websites and social media and outcome-based evaluations of state library programs. She also serves as the chair of ALA’s Committee on Research and Statistics. She has an MA and PhD in Mass Media from Michigan State University, where she received extensive training in research methods and statistics, and an M.L.I.S. from the University of Illinois. She is passionate about making data accessible and meaningful to users.

Rochelle Logan retired in 2015 from Douglas County Libraries, Colorado (DCL), where she served as Associate Director of Support Services. Rochelle’s previous work as Associate Director of the Library Research Service at the Colorado State Library prepared her for a lifelong interest in library research and statistics. She currently serves on the PLA Project Outcome Taskforce where she is helping design, test and implement tools for outcome measurement for libraries across the country. Logan spent many years serving on Colorado Association of Libraries committees and was the President of CAL in 2010. Her work on national-level research committees includes PLA Research and Statistics and the Public Library Data Service. She was chair of the ALA Committee on Research and Statistics in 2007-08. Rochelle is now a library consultant specializing in training, outcome-based evaluation, survey administration, data analysis and collection development.

Sharon Morris is Director of Library Development at the Colorado State Library. She recently completed a doctorate in Managerial Leadership in Libraries from Simmons College. Sharon has an M.L.S., has worked at the state library for 13 years and previously worked at the Denver Public Library for nine years. She provides workshops throughout Colorado and nationally on library development topics. She also facilitates public library strategic planning, focus groups, usability testing and needs assessment.
Eric Resnis currently serves as Organizational Effectiveness Coordinator for the Miami University Libraries. He participated in ACRL’s Assessment in Action program both as a team leader (year 1) and as a co-facilitator (year 3). Eric is Vice President/President-Elect (2017-2018) of the Academic Library Association of Ohio, the Ohio chapter of ACRL. He regularly publishes and presents on the value of assessment in meeting information literacy outcomes, strengthening liaison roles and demonstrating library impact towards institutional outcomes.

This program is generously sponsored by an LSTA Open Grant from the State Library of Ohio.

**TIPS AND BEST PRACTICES FOR HOSTING A SUCCESSFUL CORD CUTTING CLASS**

ONLINE VIA ADOBE CONNECT
10:00 AM - 11:00 AM

Some people pay for cable and satellite television, others opt for Internet streaming services. The latter group, often known as cord cutters, is a population quickly growing in popularity as the ease and accessibility of online streaming content is made available. While there are people who cancel their cable and jump right into the new territory, you may be surprised to know that you have many patrons in your community that would like to learn about cord cutting before they begin—making this a popular choice for an adult informational program. Pack the house at your library with a Cord Cutting 101 class.

This webinar will provide tips and tricks for you to develop an informational and useful program while promoting what the library can offer for the cord cutting population.

In this webinar you will learn:

- How to be a cord cutter including popular devices and streaming services
- What trends are shaping the cord cutting market
- Tips and best practices for hosting a cord cutting informational program of your own
- FAQs and tech support issues you may come across in your journey

**Presenter:**

*Kelsey Logston* is a Reference Librarian at Reed Memorial Library and cord cutter since 2007.

**DAY FOR CIRC STAFF: DON’T EAT THE RED FROG!**

**A CRASH-COURSE IN HANDLING SOME OF THE WORST CUSTOMERS THAT COME THROUGH YOUR DOORS!**

CANFIELD LIBRARY
43 W. MAIN ST.
CANFIELD, OH 44406
9:30 AM - 3:30 PM

Some library customers are like the Red Poison Dart Frog of Costa Rica. Their behaviors are toxic! How many times a day are you dealing with angry, difficult and even downright unreasonable customers? They truly can be poisonous – if you let them! The good news is that you can choose to not let them ruin your day or poison your “service attitude” with their venom. And by using a few proven techniques and questions, some of these red frog customers could actually leave feeling better!

The Don’t Eat the Red Frog Crash-Course program is an interactive and fun-filled program with information, videos and experiences that you’ll be using to more effectively handle your angry and difficult customers when you return to work!

Participants will learn and begin to master:

- Using the E+R=O technique to reduce stress and improve their response to situations they can or cannot control
✓ Three powerful techniques for not “eating the poison of your red frog customers” and not taking things personally
✓ Tips for de-escalating an angry patron’s behavior whether you’re the first person they see...or the next
✓ When to handle angry, difficult customers with emotional responses and when to use logical responses
✓ Safety tips for when customer behaviors go beyond unreasonable

This session will be followed by a roundtable discussion and tour of the library.

Presenter:

Andrew Sanderbeck has been developing and conducting training seminars for libraries and library organizations for more than 15 years. He has presented web-based, online and face-to-face sessions on management and leadership, customer service and communication skills in the U.S. and numerous countries around the world. He is the author of two books and more than 50 webinars.
COLLABORATION CONNECTION: A MIXER FOR ALL TYPES OF LIBRARIES
BEREA BRANCH OF CUYAHOGA COUNTY PUBLIC LIBRARY
7 BEREA COMMONS
BEREA, OH 44017
9:30 AM - 12:30 PM

Are you waiting for a collaborator in order to get your great idea off the ground or to apply for a grant? Are you at a university or community college library that would like to work with a special library? A public library that would like to work with a university or community college library? A school library that would like to work with the public library? Or, any of the other possible combinations for collaboration? Do you have services, collections, skills, etc. that you or your organization could offer to potential collaborators?

How do unrelated organizations seeking a collaborative partnership make a case for funding, what are the logistics of such partnerships and how does each entity benefit? Join us for this opportunity to find the collaboration partner you are looking for. Facilitators Kieth Peppers and Wendy Wasman have successfully collaborated on a grant-funded project to digitize an archival collection and create science-based curriculum for middle schoolers. They will open the workshop by focusing on collaboration case studies and will then lead attendees through “Collaboration Connection,” an interactive process designed to help you find the collaborator that you need – right in this very workshop.

Presenters:

Kieth A. Peppers is the University Archivist and Instructor at Baldwin Wallace University. Kieth received his education at Cleveland State University where he achieved a Master of History and Museum Studies summa cum laude. He is the co-founder and CEO of Pursue Posterity, an organization dedicated to the preservation and promotion of all history. He is concurrently employed with Baldwin Wallace University as the archivist, historian and faculty, where he teaches classes in Public History, curates exhibits, writes grants and collaborates with external institutions. During the development of his vocation, Kieth worked with a variety of museums, archives, special collections and libraries across Northeast Ohio on numerous projects from publishing corporate histories to cataloging and photographing museum collections.

Wendy Wasman is the Librarian and Archivist at Cleveland Museum of Natural History. Wendy has a B.A. in Cultural Anthropology from Oberlin College. She received her Master’s in Library Science (M.L.S.) from Kent State University in 1988. Wendy was the Librarian at the Cleveland Museum of Natural History from 1988 until her move to Philadelphia in 1994, where she served as the Science Librarian at Haverford College. She returned to Cleveland in 2000 and rejoined the Museum as Librarian in 2008. In 2012, she assumed responsibility for the Museum Archives. As the Librarian and Archivist, Wendy oversees the 50,000-volume research library, curates the 1,000-volume rare book collection, maintains the special collections and manages records retention for the Museum. Wearing four different hats is sometimes challenging, but Wendy loves that she can learn something new every single day.

EMERGING TECH SYMPOSIUM: THINKING OUTSIDE THE [MAKERSPACE] BOX
HILTON GARDEN INN
8971 WILCOX DR.
TWINSBURG, OH 44087
9:00 AM - 4:00 PM

Already have a Makerspace and wondering what is next? Still don’t have a Makerspace and wondering if you should? The 2018 Emerging Tech Symposium, “Thinking Outside the [Makerspace] Box,” will focus on assessing community needs and evaluating emerging technologies in relationship to those needs.
Join your colleagues for a day of speakers, breakout sessions, a poster session and concluding panel discussion. Go back to your library with a better idea of what your next innovative tech project could or should be.

Featured Presentations:

We will start the day with *Evaluate, Evaluate, Evaluate!* presented by Jennifer Koerber, Writer, Consultant and Trainer on Libraries & Technology. Technology is a strange thing - we live with it every day, but we don’t often think about what we need and why we need it. As library staff, that goes a step further: we believe that we should have technology and tech programming at our libraries, but we don’t always think about what and why.

There are many ways to evaluate the what and why of technology at the library – before, during and after we’ve bought something or implemented a program. In this session, we’ll review library, staff and community analysis tools (including the Edge assessment process); practice evaluating gadgets and products for use in a library environment; and explore how planning for outcomes measurement can help keep you focused on your tech-related goals. Through this discussion, you’ll be able to identify evaluation options that work for your library, regardless of type, size and budget.

After breakouts, we will continue the morning with Nick Grove, Tech Library Supervisor, Meridian Library District, who will present *unBound Potential*. What does it take to create something new for your library? Money helps, training is nice, new equipment is fun and extra staffing never hurts but those are not necessary to be successful. The best results come from hiring the right staff, creating a culture of change, embracing the unknown and being present throughout the community. Learn how Meridian Library District transformed an abandoned bank building into a vital asset to revitalize its downtown. This is the story of unBound, a technology library.

Doug Baldwin, Head of Technology at Piscataway Public Library, will kick off the afternoon talking about *Fostering Community Connection, Engagement and Learning Through the Maker Movement*. The Maker Movement is about much more than space and places, it’s about people and passions. NJ Makers Day, now in its 4th year, is a statewide initiative bringing together host organizations of all types to provide STEM and maker events embedded within their local communities. Doug Baldwin, President of NJ Makers Day, will focus on how NJ Makers Day incubated from idea to reality in trying to bring together communities and organizations statewide to foster connections, relationships and experiences for residents of New Jersey statewide. This will include covering areas of recruitment, logistics, fundraising, professional development, cultivating collaborations and partnerships, reporting and evaluation, as well as developing support mechanisms for host locations supporting events in their communities. The presentation will also consider the impact of NJ Makers Day for participating hosts, their communities, sustainable partnerships and network development with various organizations and institutions, as well as the challenges and benefits of moving from a library consortium funded project to a stand-alone 501(c)(3) non-profit.

Everyone will have the opportunity to attend the poster session and each of the following breakout sessions throughout the day:

✓ *Emerging Tech Lab* gives you an opportunity to see and try out new technologies, presented by Holly Klingler, NEO-RLS Research and Innovation Coordinator

✓ *Introduction To Applying For Technology-Related Grants*, presented by Cindy Boyden, LSTA Coordinator / Library Consultant, State Library of Ohio

✓ *Innovative Solutions For Better Patient Care, Prevention And Education*. This breakout session presented by Brian Moynihan, Head of Health Technology & Informatics at the University of North Carolina Health Sciences Library and Director of the Carolina Digital Health Research Initiative (CaDHRI), will focus on enterprise and consumer-based e-Health devices.

**Presenters:**

Jennifer Koerber is a consultant, writer and trainer working in the intersection of technology, libraries and everyday life. She held a variety of roles during her 17 years at the Boston Public Library and is currently the training project manager for Harvard (University) Library’s implementation of the Alma (Ex

Nick Grove is the Tech Library Supervisor for the Meridian Library District at the new technology library, unBound. By taking unBound from an idea to opening in eight months, Nick was honored to be named to *Library Journal*’s 2016 Mover & Shaker list. At unBound, Nick has worked to create a space where anyone in the community can freely access emerging technology, design software and business working space. Nick enjoys playing around with any new technology he can get his hands on and spending time with his two sons.

Doug Baldwin is a librarian, informal educator, presenter and advocate who is passionate about developing and delivering hands-on, interactive learning experiences for those of all ages. He is one of the principal organizers and current President of NJ Makers Day, a statewide showcase event highlighting innovative play, entrepreneurship, making and STEM which drew 85,000+ residents across 300 hosting locations in 2016. He has also written and co-written successful grants to fund initiatives related to computer science education, as well as STE(A)M workshops and programs. Doug is also part of the planning team for the Build it Better Design Challenge, in partnership with ManufactureNJ, a one-day competition designed as a bridge experience in areas of engineering, design and entrepreneurship for high school students. Additionally, he was part of the planning team which incubated and produced the first New Jersey Makers Summit at Rutgers University in August 2017. His program initiatives have been recognized for their impact and excellence from the NJ State Legislature, New Jersey Library Association (NJLA) and American Association of School Librarians. He is a recipient of the NJLA Library Service Award and was most recently named a 2017 *Library Journal* Mover and Shaker for Advocacy. Presently, Doug serves as Head of Technology at the Piscataway Public Library where he has worked for the last five years. He has B.A. (History) and M.L.I.S. degrees from Rutgers University and an M.A. degree in Social Science from Montclair State University.

*Speakers for the Emerging Tech Symposium are generously sponsored by an LSTA Open Grant from the State Library of Ohio.*

**WE CAN’T STOP DOING THAT!**

ONLINE

VIA ADOBE CONNECT

10:00 AM - 11:00 AM

Why is it so easy to start new projects or formulate new procedures and policies, yet so hard to stop doing things that are no longer important, efficient or effective, especially if they were once necessary or successful? How can you help yourself and your staff see the value in cutting procedures or services that are no longer working? This webinar will look at the reasons it is often difficult to eliminate something that we do or provide and will talk about a model for actively involving staff in determining if something can be stopped, why it can be stopped, when it can be stopped and how it can be stopped.

Learning Objectives:

- ✓ Understand barriers to stopping a task or activity
- ✓ Examine tasks and activities in terms of value to the organization
- ✓ Provide a model for effectively involving staff in the decisions

**Presenter:**

*Betsy Lantz*, Executive Director, Northeast Ohio Regional Library System
When money is tight, libraries frequently look to volunteers to help get work done. Even if money isn’t tight, free labor is hard to ignore. However, is it really free? The benefits of having volunteers can be far greater than the obvious labor they provide. Sometimes having a volunteer program in a library is about much more than getting tangible aid. Taking a look at the benefits and challenges of having volunteers can allow you to decide if it is something that you want to do at your library. Melanie Lyttle and Shawn Walsh of Madison Public Library will explore the benefits and challenges of utilizing volunteers in the library.

Using volunteers in the library can indeed be challenging. Lindsey Smith, Outreach Services/Volunteer Coordinator for Worthington Libraries, is a full-time staff member who spends about ten hours a week administering the volunteer program at her mid-sized library. She has the benefit of more than 10 years of volunteer management experience and will discuss some of the common staff concerns about volunteer training, appropriate jobs and behavior management.

**Presenters:**

Melanie A. Lyttle is the Head of Public Services at Madison Public Library. She has contributed to *IFLA Libraries For Children and Young Adults Division* magazine, *ALSCMatters*, *Children and Libraries*, *Public Libraries Online* and chapters in several different library-related anthologies. She is the co-author of the book *Library Service to Tweens* published in 2017. She has served on various ALSC and YALSA committees including the 2019 Morris Award Committee.

Shawn D. Walsh is the Emerging Services and Technologies Librarian at Madison Public Library. He has been in the library field since 1997, and he is a contributor to *Public Libraries Online*, *Children and Libraries* and chapters in several different library-related anthologies. He is the co-author of the book *Library Service to Tweens* published in 2017. Shawn is also responsible for maintaining Madison Public Library’s technology infrastructure and oversees computer and technology instruction to patrons and staff. Within the community, Shawn is best known for his school presentations and preaching the awesomeness of online library services.

Lindsey Smith is the Outreach Services/Volunteer Coordinator at Worthington Libraries, a mid-size and Library Journal five-star library in a suburb of Columbus, Ohio. Lindsey began her career organizing and training volunteers to meet with their legislators to advocate on behalf of cancer issues before entering Kent State University’s M.L.I.S. program. Upon graduation, Lindsey worked at Columbus State Community College as a reference librarian and as a library associate at Worthington Libraries before she was hired into her current position in 2009.

**THE IRON IS HOT - LIBRARIES AS INNOVATIVE AND DYNAMIC COMMUNITY CATALYSTS**

TWINSBURG PUBLIC LIBRARY
10050 RAVENNA RD.
TWINSBURG, OH 44087
9:30 AM - 3:30 PM

Public library director, Mary Lou Carolan, has worked to dynamically transform libraries using a blend of innovative marketing techniques, community-centered projects, storytelling and placemaking principles. Carolan believes public libraries need to use their unique status as trusted institutions to implement what she calls the “3i” approach – initiate, innovate and instigate – to become true community leaders.

Carolan asserts that a successful library today builds enduring relationships with school districts, collaborates and innovates with local small businesses, is a catalyst for important community conversations
and regularly connects with legislative leaders to be a voice in the decision-making process. A customer-centered library develops from knowing, engaging and fostering the interests of the community.

Drawing from 14 years of library experience, bolstered by 25 years leading community-based non-profit organizations, Carolan shares a variety of techniques from successful marketing campaigns to outreach initiatives. Participants will engage in a lively and interactive workshop to discuss challenges, share ideas, learn to tell stories, explore possibilities and utilize tools designed to help you make the community the heart of your library.

**PERSONAL LIBRARIAN PROGRAM: WHAT WORKED, WHAT DIDN’T AND HOW TO GET ONE STARTED**

**ONLINE**

**VIA ADOBE CONNECT**

10:00 AM - 11:00 AM

Many colleges and universities are developing personal librarian programs in an effort to reach more students. Join Jennifer Starkey and Amanda Koziura for a discussion touching on program logistics, assessment, marketing, outreach, programming and what they’ve learned from being personal librarians over the years.

**Learning Objectives:**

- Attendees will examine the value and impact of such a program on the lives of first-year students
- Attendees will develop a list of considerations to help make decisions when creating a program that meets the needs of their student population
- Attendees will learn strategies to assess and improve their program

**Presenters:**

*Amanda Koziura* joined Case Western Reserve University as a Digital Learning & Scholarship Librarian in 2014. She manages the daily operations of the instructional series CaseLearns, which features workshops on a variety of media, digital scholarship and information literacy topics. She also frequently teaches and consults on digital projects and has been a personal librarian for several years. She holds a B.A. in Theatre & English from Skidmore College and an M.L.S. from the University at Buffalo, SUNY.

*Jen Starkey* is a Research Services Librarian for Social Sciences and Humanities at Case Western Reserve University, joining the staff in 2017. Jen manages the daily operations of the Personal Librarian Program, focusing on the first-year experience and KSL’s library instruction program, as well as reference services and collection development and management. Prior to 2017, Jen was a Reference & Instruction Librarian at Oberlin College, where she developed Oberlin’s unique First Year Library Advisor Program.

FULL S.T.E.A.M. AHEAD:
“The first session, which was on math, was fabulous! I will be using many of the ideas in storytime as well as special preschool programs. It was mind-blowing to hear that in the first month of kindergarten kids will be expected to use equations, so I will make a point of introducing them at my programs.”

A.L.I.C.E. TRAINING:
“With our current culture, I think this training is very important not just because we work in a library, but it is something we can take with us everywhere we go. When we go out to eat, to concerts, movies, travelling, etc., there is a real chance that eventually we will need to use some of this training. I especially take value in the Barricade idea of hiding. Don’t just hide beneath a desk, but barricade the entrance if I have to hide so the killer will not enter.”

WINNING LIBRARY GRANTS:
“I really liked the info about where to find specific grant funders and all the details about how to plan before writing.”

IT’S A MANAGER’S JOB TO MOTIVATE STAFF:
“The hour was packed full of a lot of great ideas that will transfer to my work as TL at our library.”

A DAY FOR CIRC:
“Thank you for the opportunity to attend today’s class. I found the information educational and “eye-opening.” … The afternoon discussion was the real “eye-opener” as to issues that other library staff deal with daily. I will certainly share this information with my manager, director and peers.”

TRAVELING TECH LAB
“Most libraries can’t afford to buy every new high-tech gadget, but this program provides a cost-effective way of introducing kids, teens and adults to the latest trends in technology. This is hands-on learning, with participants able to use each device and understand how it works. It also helps library staff determine which devices are popular and worth buying for their library. We’ll bring the Tech Lab in again when they’ve added new devices!”

“…She brought the “wow factor” by introducing new products/gadgets for staff to use. This informative hour allowed us to understand how we can provide innovative services to our patrons.”
