

October 19, 2017

I recommend Alex Thomas & Friends for the performers showcase list on the State Library website. They are very talented & easy to work with. I brought them to Defiance to perform with their puppet Waxler for a community event with which we partner. Most of their puppets are Sesame Street like. They set up cameras in the room so it is as if the puppet really sees the audience. The puppet can interact very well with the audience in this way. They were actually back today to help us with our levy campaign. They had a puppet interview some of our Friends members about the levy. They are a great bunch of people to work with, professional & generous.
