

October 31, 2017

The Wixom Public Library has had several programs by Alex Thomas & Friends in the past few years. We've had puppet shows for little kids, special effects workshops for tweens, and stop motion workshops for teens. Without fail our patrons love them. Alex, Jessica and their crew are always prepared, professional and ready to put on an amazing show. Their puppet shows are interactive and get the kids excited about participating, and they especially love when the puppets autograph pictures of themselves after the show. With the tweens and teens, Alex and his crew are always patient in answering questions and bring a true love of their craft that the kids can definitely see. We highly recommend them to any library or venue that wants amazing programs done by people who are easy to work with and love what they do.
